

Geonpyo Kim

Computer Science and Engineering
Seoul National University

Email: dennisoda@snu.ac.kr
GitHub: <https://github.com/gs22006>

Education

Seoul National University
Undergraduate student, Computer Science and Engineering

Skills

Python, C++, Java

Interests

Algorithmic theory, problem solving, optimization algorithms

Projects / Activities

Simple SQL Compiler / Executor
A small project using Python and Lark.

Genetic Algorithm Study for NP Problems
A study on applying genetic algorithms to problems such as Knapsack and Minimum Vertex Cover.

Awards / Certifications

KOI
